REISSUE DECLARATION

As a below named inventor, I declare:

My residence, mailing address and citizenship are stated below.

Inventor	Citizenship
Tomomi Momohara	Japan
Residence	
Yokohama-shi, Japan	
Mailing Address	
c/o Intellectual Property Div., TOSHIBA CORPORATION 1-1, Shibaura 1-chome, Minato-ku 105-8001 Japan	

I believe that I am the original, first and sole inventor of the subject matter which is described and claimed in the above-referenced patent, for which a reissue is sought, the specification of which is attached hereto and amended by the accompanying preliminary amendment.

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by the amendment of April 21, 2005.

\\LA - 081790/000189 - 552104 v1

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I hereby claim foreign priority benefits of Japanese Application No. 7-249531 filed September 27, 1995 under 35 U.S.C. 119(a)-(d).

I verily believe the original patent to be wholly or partly inoperative or invalid by reason of the patentee claiming less than he had the right to claim in the patent. Specifically, this application for reissue of U.S. Patent No. 5,818,249 is filed because the claims of U.S. Patent No. 5,818,249 are defined in terms of signal lines carrying both a test signal and a response signal. This is unduly restrictive in that aspects of the invention can be practiced using other test methodologies. The newly presented claims in the amendment of April 21, 2005 do not include this error. These errors and the other errors that are corrected by this reissue application arose without deceptive intent.

As the named inventor, I hereby appoint practitioners associated with:

Customer Number 26021

as my attorneys or agents to prosecute the application identified above, and to transact all business in the United States Patent and Trademark Office connected herewith.

Please direct all communications about the application to:

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.
